

School Selection 2021 - it's time to submit your school preferences for your child!

It will be time for your child to begin school at the start of the fall 2021 term.

Between **11 January 2021 and 31 January 2021**, parents and guardians of children living in Lund Municipality will be asked to submit their school preferences for their child.

Students and parents/guardians are entitled to free choice as concerns the school that they/their child will attend. To do so however, you must submit your preferences. You may choose either municipal or independent schools. Regardless of where you live, or how close it is to a particular school, you should submit your preferences so that you have input concerning the school that your child will attend.

Submit your school preferences online

Submit your preferences via Lund Municipality's online service. To use that service, you will need to verify your identity using BankID. If, for some reason, you are unable to submit your preferences using the online service, you may instead fill out a form that will be provided by your child's preschool.

When submitting your choices online, you must choose **at least** three schools, ranking them by order of preference. Your choices may include both municipal and independent schools. **Please note that your child will only receive placement at one school, either municipal or independent.**

If your child has two guardians, both are required to sign. Both guardians have legal responsibility for their child and as such, they must reach agreement among themselves on the school preferences for their child. If you are the sole guardian, only your signature is required.

Decisions will be announced in March 2021

At the end of the application period, Lund Municipality will assign children to schools, based on the preferences submitted by their guardians and the number of available spots at each school. In the past, slightly more than 90 percent have gotten their first choice.

If you submit your preferences using our online service, we will notify you via email at the address you have indicated as soon as a decision has been made. If you submit your preferences using a paper form, we will send you an answer by regular mail.
